NO. OF ENCLS.

SUPPLEMENT TO REPORT NO.

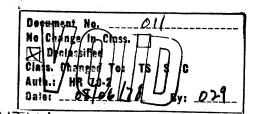

The airfield  $3_{2}^{1}$  km northwest of Lebedin (34°39°L/50°35°N), Ukrainian SSR, bordered on woods on three sides. The construction of the field was completed in May 1948.

- 2. Six new reinforced concrete hangars, including one with a searchlight, were in the southern section of the field. The ground personnel were quartered in three three-story buildings.
- 3. The airfield was occupied by about 125 IL-10s in early June 1928.
- 4. A fuel dump with eight containers, each 6 meters in diameter and E meters high, with a railroad connection was about 300 meters west of the Lebedin railroad station. It supplied all troop units stationed in the Lebedin area (including the airfield).

25X1A Comment.

> This is the first postwar report on the Lebedin airfield. According to available records an airport was south of Lebedin during the war.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States. Next Review Date: 2008
